Report of Independent Auditor

To the Board of Trustees
Mary Black Foundation, Inc.
Spartanburg, South Carolina

Opinion

We have audited the accompanying financial statements of Mary Black Foundation, Inc. (the “Foundation”) (a nonprofit organization), which comprise the statements of financial position as of December 31, 2021 and 2020, and the related statements of activities, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of December 31, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation’s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

MARY BLACK FOUNDATION, INC.
NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND 2020

Note 1—Nature of operations and summary of significant accounting policies

Organization and Business Purpose – Mary Black Foundation, Inc. (the “Foundation”) was incorporated under the laws of South Carolina to operate as a permanent foundation to utilize its resources to benefit and enhance the health status and wellness of citizens of Spartanburg County. The Foundation’s activities are overseen by an outside board of trustees.

Basis of Presentation – The Foundation follows the provisions of accounting principles generally accepted in the United States of America (“U.S. GAAP”) for not-for-profit organizations which require the reporting of total assets, liabilities, and net assets in a statement of financial position; reporting the change in net assets in a statement of activities; and reporting the sources and uses of cash and cash equivalents in a statement of cash flows.

Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Without Donor Restrictions – Net assets that are not subject to donor-imposed stipulations.

With Donor Restrictions – Net assets subject to donor-imposed stipulations that may or will be met either by actions of the Foundation and/or the passage of time.

As of December 31, 2021 and 2020, the Foundation had no net assets with donor restrictions.

Cash and Cash Equivalents – Cash and cash equivalents consist of highly-liquid investments with maturities of three months or less when purchased.

The Foundation places its cash and cash equivalents on deposit with financial institutions in the United States. The Federal Deposit Insurance Corporation covers \$250,000 for substantially all depository accounts. The primary account maintains a target balance of \$250,000 for the funds to remain in compliance with FDIC Insurance limits. Beginning in March 2021, excess funds greater than \$250,000 are swept into a secondary account called an Insured Cash Sweep (ICS) that is fully insured. The Foundation from time to time may have amounts on deposit in excess of insured limits but mitigates this risk by utilizing the ICS account. The Foundation continually monitors the soundness of these financial institutions and believes the exposure to loss to be minimal.

Investments – Investments in mutual funds are stated at fair value based on quoted market prices. Investments in commingled funds held in partnerships are valued at fair value using the net asset value (“NAV”) per share as estimated by the partnerships’ general partners, which generally represents the Foundation’s proportionate share of the fair value of underlying securities. Investments in infrastructure held in a partnership, for which there is no ready market, are valued at fair value using NAV per share as estimated by the partnership’s general partners. These investments in infrastructure may have exposure to transactions with counterparties including futures, swaps, options, and other derivatives. These investments may be subject to various risks of loss if the counterparty becomes insolvent or is otherwise unable to meet its obligations. Investment income and gains and losses on investments are reflected in the statements of activities as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law.

Investments are exposed to various risks such as interest rate, market, credit, and liquidity. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the Foundation’s account balances and the amounts reported in the financial statements.

MARY BLACK FOUNDATION, INC.
NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND 2020

Note 1—Nature of operations and summary of significant accounting policies (continued)

Investment Return Policy – The Foundation’s investments are managed to preserve and enhance through time the real (inflation-adjusted) value of the investment portfolio after making grants and meeting the operating expenses of the Foundation. The individual investment managers’ rates of return are compared with the returns of an appropriate market index. Investment earnings are unrestricted as to their use.

The long-term asset allocation policy of the Foundation reflects targets of 54% public equities, 25% fixed income, 10.5% real estate, 3.5% private credit and 7% private equity at December 31, 2021. The long-term asset allocation policy of the Foundation reflects targets of 50% public equities, 30% fixed income, 10% real estate, and 10% opportunistic at December 31, 2020.

Notes Receivable – The Foundation’s notes receivable represent program related investment and are stated at net realizable value. The Foundation establishes allowances for collectability based upon facts surrounding the current financial condition of the entities that owe the notes. Receivables are considered delinquent when payments are not received in accordance with stated terms. During the year ended December 31, 2021, the Foundation issued three unsecured notes described in Note 3.

Land, Building, and Equipment – Land, building, and equipment are stated at cost. Acquisitions in excess of \$500 are capitalized. Depreciation is provided for by the straight-line method, based on the estimated useful lives of the assets (ranging from 3 to 40 years). No provision for depreciation is made on construction in progress until such time as the relevant assets are completed and placed into service. When assets are retired or otherwise disposed, the cost and related accumulated depreciation are eliminated from the accounts and the resulting gain or loss is reflected in the Foundation’s statements of activities during the applicable period. Long-lived assets are reviewed for possible impairment whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable. No impairment charges were recognized on long-lived assets for the years ended December 31, 2021 or 2020. The Foundation records acquisition of works of art in furniture, fixtures, and equipment at the estimated fair value. No depreciation is recorded for the art collection.

Grant Related Income – A portion of revenue is derived from cost-reimbursable federal grants, which are conditioned upon certain performance requirements and/ or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when we have incurred expenditures in compliance with specific grant provisions. Amounts received prior to incurring qualifying expenditures are reported as refundable advances in the statements of financial position. There were no amounts received prior to incurring qualifying expenses at December 31, 2021 or 2020. No amounts have been received in advance under federal grants.

Coronavirus Aid, Relief, and Economic Security Act Grants – In April 2020, the Foundation was granted a loan from a financial institution in the United States in the aggregate amount of \$125,000, pursuant to the Paycheck Protection Program (“PPP”) under Division A, Title I of the Coronavirus Aid, Relief, and Economic Security (“CARES Act”). PPP loans are considered conditional contributions, with right of return in the form of an obligation to be repaid if a barrier to entitlement is not met. The barrier is that PPP loan funds must be used to maintain compensation costs and employee headcount, and other qualifying expenses (mortgage interest, rent, and utilities) incurred following the receipt of the loan funds. The Foundation selected Accounting Standards Codification) 958-605 as the applicable standard for accounting for the PPP loan and, as such, recognized the funds when the qualifying wages were incurred. As a result, the Foundation recognized \$125,000 as CARES Act grant income on the statement of activities for the year ended December 31, 2020 representing the qualifying expenses incurred (i.e., barriers met). During the year ended December 31, 2020, the Foundation applied for and received loan forgiveness from the Small Business Administration (“SBA”).

MARY BLACK FOUNDATION, INC.
NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND 2020

Note 1—Nature of operations and summary of significant accounting policies (continued)

Grants Payable – Grants payable represents all unconditional grants that have been authorized prior to year-end but remain unpaid as of the statements of financial position date. Grants that are expected to be paid in future years are recorded at the present value of their estimated future cash outflows. The discounts on those amounts are computed using risk-free interest rates applicable to the years in which the grants are approved by the Board of Trustees. Amortization of the discounts is included in grants expense in the accompanying statements of activities. Conditional grants, which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses by the grant recipient, are expensed and considered payable in the period in which the conditions are substantially satisfied.

Income Taxes – The Foundation is exempt from federal income taxation under Section 501(c)(3) of the Internal Revenue Code (the “Code”). The Foundation is classified as a private foundation as defined under the Code.

In accordance with applicable provisions of the Code, as a private foundation, the Foundation is subject to an excise tax of 1.39% for the years ended December 31, 2021 and 2020, (1% if certain payout requirements prescribed by the Code are met) on net investment income, including realized gains as defined in the Code. Deferred excise taxes arise primarily from unrealized gains or losses on investments and are calculated at the effective rate expected to be paid by the Foundation. Current excise taxes were provided using 1.39% for the years ended December 31, 2021 and 2020. Deferred federal excise taxes were provided at 1.39% on cumulative unrealized gains or losses on investments existing at December 31, 2021 and 2020. Cash paid for excise taxes and UBTI in 2021 and 2020, was \$87,500 and \$6,035, respectively.

Excise tax expense differs from amounts currently payable because certain investment income is included in the statements of activities in periods that differ from those in which it is subject to taxation. The difference between excise tax expense and taxes currently payable is reflected as a deferred tax asset or liability on the statements of financial position. As of December 31, 2021 and 2020, the Foundation had a deferred tax liability of \$90,607 and \$48,018, respectively.

Tax expense consisted of the following for the years ended December 31:

	<u>2021</u>	<u>2020</u>
Current tax expense	\$ 44,503	\$ 97,815
Deferred tax expense	42,589	20,298
	<u>\$ 87,092</u>	<u>\$ 118,113</u>

The Foundation follows the Financial Accounting Standards Board (“FASB”) guidance on Accounting for Uncertainty in Income Taxes. The Foundation’s policy is to record a liability for any tax position taken that is beneficial to the Foundation, including any related interest and penalties, when it is more likely than not the position taken by management with respect to a transaction or class of transactions will be overturned by a taxing authority upon examination. Management believes there are no such positions as of December 31, 2021 or 2020 and, accordingly, no liability has been accrued.

The Foundation files informational returns in the U.S. federal jurisdiction. Interest and penalties are expensed as incurred. No interest and penalties were charged to expense for the years ended December 31, 2021 or 2020.

MARY BLACK FOUNDATION, INC.
NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND 2020

Note 1—Nature of operations and summary of significant accounting policies (continued)

Distribution Requirements – The Foundation is subject to distribution requirements of the Code. Accordingly, it must distribute within one year after the end of each fiscal year 5% of the fair value of its investment assets, as defined by the Code. The investments includable for the 5% distribution requirement are based on average balances (or, in the case of real estate, periodic appraisals) and are exclusive of those investments deemed to be held for charitable activities or other program-related investments. In determining qualifying distributions, grant payments are considered on a cash basis and certain operating expenses are considered as qualifying distributions. The Foundation has complied with distribution requirements through December 31, 2021.

At December 31, 2021, the Foundation had excess distribution carryforwards totaling \$6,779,208. This excess qualifying distribution is carried forward and is available to offset future minimum distribution requirements. This carryover amount expires between December 31, 2022 and December 31, 2026.

Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the use of estimates made by management. Actual results could differ from those estimates.

New Accounting Pronouncements – In February 2016, FASB issued Accounting Standards Update (“ASU”) 2016-02, *Leases*. The standard requires all leases with lease terms over 12 months to be capitalized as a right-of-use asset and lease liability on the statement of financial position at the date of lease commencement. Leases will be classified as either finance or operating. This distinction will be relevant for the pattern of revenue recognition in the statement of activities. This standard will be effective for the calendar year ending December 31, 2022. In June 2020, FASB issued ASU 2020-05 which provided for an optional deferral of the effective date of Topic 842 by one year. Under this deferral, the effective date of Topic 842 is for the year ending December 31, 2022. A modified retrospective transition approach is required for leases for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available.

In September 2020, FASB issued ASU 2020-07, *Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. The standard requires presentation of contributed nonfinancial assets as a separate line item in the statement of activities and changes in net assets, apart from contributions of cash and other financial assets. It also requires a disclosure of disaggregated contributions of nonfinancial assets by category that depicts the type of contributed nonfinancial assets. This distinction will increase transparency of contributions recognized. The Foundation anticipates that the adoption of this standard will have a minimal impact on financial reporting. This standard will be effective for the fiscal year ending December 31, 2022.

Grants payable, net	<u>\$ 2,475,912</u>	<u>\$ 1,424,587</u>

Note 9—Leases and building

The Foundation purchased land and a building in 2004 for three purposes: (1) to house the Foundation offices; (2) to offer space for local nonprofits to use for meetings, conferences, and workshops; and (3) for a real estate investment. The Foundation renovated the building and then occupied it in March 2006. The land and building costs are reflected in Note 5. The space not designated for use by the Foundation or for nonprofit meetings is available for lease. As of December 31, 2021, the Foundation has noncancelable operating leases with four tenants. The initial lease terms expire in various years through 2025, with certain renewal options available for each tenant. Rent income for the years ended December 31, 2021 and 2020 was \$207,386 and \$191,769, respectively.

Minimum future rental payments to be received under the noncancelable operating leases are as follows for the years ended December 31:

2022	\$ 200,343

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND 2020

Note 11—Fair value measurements

In accordance with the authoritative guidance on fair value measurements and disclosures under U.S. GAAP, the Foundation discloses and recognizes the fair value of its assets and liabilities using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The guidance establishes three levels of fair value as follows:

Level 1 – Valuation is based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical investments;

Level 2 – Valuation is based on inputs other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Valuation is based on unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to pricing of the asset or liability including assumptions regarding risk.

The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments.

When available, the Foundation uses unadjusted, quoted market prices to determine the fair value of investment securities, and they are included in Level 1. For investments held in partnerships, the Foundation uses other inputs including NAV per share estimated by the investment partnerships' general manager. Such investments may not have readily available market values and may be subject to certain redemption restrictions. Such investments are measured at fair value using NAV per share practical expedient and have not been classified under the fair value hierarchy.

The Foundation's investments measured at value as of December 31, 2021 are as follows:

	Investments Measured at NAV	Investments Categorized in Fair Value Hierarchy			Total	Liquidation	Day's Notice
